Dear Minister

Together we have a responsibility each and every day to make Queensland an even better place, to create opportunities, tackle challenges, and deliver for hardworking Queenslanders.

Easing cost-of-living pressures, delivering better healthcare and more housing, and keeping our communities safe are core priorities that we are all responsible for driving, regardless of which portfolio we lead. Collectively, we must also focus on safeguarding Queensland's future by lifting our ambition on climate action, while supporting new industries and creating jobs where they are needed most.

This letter outlines a range of delivery priorities in your portfolio, which I know you will work relentlessly towards achieving.

The highest priorities I want you to focus on as Minister for Regional Development and Manufacturing and Minister for Water are to:

- grow regional economies
- increase Queensland's manufacturing capability
- ensure trains are built in Queensland under our pipeline of train building work in Maryborough
- ensure water security for all Queensland communities, industry and agriculture.

Listening to the voices of Queenslanders and working closely with other ministers will be essential to achieving meaningful outcomes. The priorities set out in the attached portfolio priority statement will also inform chief executive officer performance agreements and shape the functions and activities of departments and agencies.

In delivering on these priorities, please ensure you are working with your federal and other Australian state and territory government counterparts to ensure Queensland's interests are proactively represented and the benefits to Queenslanders are maximised. I will meet with you regularly to discuss progress in implementing the actions identified.

At all times, I expect that ministers and assistant ministers will make all decisions and take all actions in the public's interest, without regard to personal, party political or other immaterial considerations.

We cannot achieve our goals for Queensland without the public service, and I expect that ministers and their staff will engage with chief executive officers and departmental staff with the utmost respect and in accordance with *The Queensland Ministerial Handbook*, *Ministerial Code of Conduct*, *Code of Conduct Ministerial Staff Members'* and the *Protocols for communication between ministerial staff members and public service employees*. I refer you to *Governing Queensland* for the suite of policy and administrative handbooks, which is available on the Department of the Premier and Cabinet's website at www.premiers.qld.gov.au.

I look forward to continuing to work closely with you to deliver better services and create opportunities for all Queenslanders.

Yours sincerely
